22 MATH PUZZLES WITH ANSWERS TO TEST YOUR LOGIC

These easy math puzzles with answers turn out to be a big challenge for those whose mind is not used to work. These riddles and brain teasers will test your logic and will improve your IQ level: 00:14 - Easy math puzzles to smoothly start your brain workout. Btw, kids solve this in seconds (it took me more than 10 minutes, I'm definitely an old soul). 02:05 - Odd one out - Logic puzzles. These easy picture puzzles for kids and logic puzzles with answers will test the sharpness of your brain. Technically, they are super easy, but in reality they break heads of many teachers (test your parents and see if they get it. I suspect they will fail). 03:06 - Mind bending riddles with answers to test your logic outside the box. 04:05 - Cool tricks - Easy math games. Cool tricks and math games that will teach you how to measure time in any unusual circumstances, of course if you get how it works? Before the secret is revealed, you will have to rack your brain hard and try to find it out by yourself. Feel free to manipulate the hourglasses as you wish, just do not break them? Even if you fail to do this, don't blame yourself as this task is a really tough one only 10% of people can crack! 06:36 - Text riddles with answers - Quiz questions in English. A set of tricky text riddles or quiz questions that will make you stretch your brain and use 100% of your creativity and sense of humor! The questions may seem difficult, but actually you don't need any special knowledge, only your logic and ingenuity? What's more, your knowledge in sciences won't help you at all! Are you ready to challenge your brain and test your ability to think logically? Ready, steady, go! 08:05 - Easy math puzzle games for kids. This math puzzle will force your brain to think (which is good, right?! The question is easy, but it will take all your brain to find the answer (or just wait till the time is up and see the answer ?)) 09:21 - Visual puzzles - Big challenges. Cool visual puzzles testing how well you know these famous brands which seem to have been with us our whole life! However, some of them were founded much earlier than the others. Can you find out which of the two rivals is the pioneer and which one is its successful competitor? You don't need any special knowledge at all, just use your memory 100% and it will prompt an answer! A short puzzle with answers to warm up your brain and give you some interesting facts! 11:59 - Unusual riddle to test your brain outside the box. TELL me IN THE COMMENTS your answers to the second set of riddles (02:05) and whether these math puzzles for kids were too easy/difficult for you. Math Antics - Basic Probability

This is a re-upload to correct some terminology. In the previous version we suggested that the terms "odds" and "probability" could be used interchangeably. While this may be okay in casual conversation (since both have to do with the likelihood of an event), the two terms mean something slightly different in math and are calculated differently. We apologize for any confusion.
