### **The Modern Revolution: Crash Course Big History #8**

In which Hank and John Green teach you a Crash Course on the modern revolution, and the upside of the progress that humanity has made in the last 500 years or so. And while there are two sides to every history, and many of these changes haven't been great for the other inhabitants of the Earth, collective learning has made life better for people in general. We'll talk about the European explorations, improvements in machinery, communications, and the harnessing of energy that improved the lot of human beings.
